

The screenshot shows a video management software interface. On the left, there is a sidebar with a list of cameras (CAM#1 to CAM#10) and a control panel with various icons and a calendar for February 2018. The main area displays a video playback window with a timeline at the bottom. An 'Archive' dialog box is open in the center, with the following fields and options:

- From: 14/02/2018 03:47:09
- To: 14/02/2018 03:47:09
- Use Password
- Password: [Empty field]
- File Name: [Empty field]
- Camera: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16
- Status: [Empty field]
- Buttons: EXE Backup Start, EXIT

Four red callout boxes provide instructions:

- Top right: Stop playback then click on this icon here.
- Middle right: The box on left will now appear. Enter Start date/time and end date/time
- Bottom right: Click on here and select location to save on your computer
- Bottom right: Tick which cameras want to download
- Bottom right: Once done all of the above click here and download will begin
